WHEAT IS WEAK AND LOWER

MARKET WAS AT TIMES ALMOST WITHOUT SUPPORT.

Crop Advices From Illinois, Indiana and Missouri Were Bad, but Bulls Could Not Get Their Courage Up-Corn Active.

Chicago, March 22.-Wheat to-day closed weak at a decline of 1%c. Statistical news, as a rule, favored an advance, but no attention was paid of it, the market at times being almost entirely without support, Other markets were weak, partly in sympathy with wheat, corn declining %c, oats

e and provisions 746124c. In spite of bullish statistics and much bad crop news wheat was dull and heavy. The extreme duliness and narrowness in trade and the weakness in the early Liverpool cables more than offset the bullish statistics, and caused a good deal of liquidation, which was chiefly responsible for the weakness. Crop advices from Illinois, Indiana and Missouri were bad, but those from Kansas and Ohio were fairly favorable. The visible supply decreased more than expected, the figures being 1,019,000 bushels, and the clearances from the seaboard were again large—about 45,000 bushels in wheat and flour, but no demand for export was reported. World's shipments last week were a trifle less than 3,000,000 bushels, against 3,037,000 bushels the week before, and 5,400,000 bushels the same week last year. bad crop news wheat was dull and heavy.

st year. Nothing could infuse spirit into the bulls, Nothing could infuse spirit into the bulls, however, and the price within an hour of the opening was 1½c below the price it closed at Saturday for May delivery. Crop damage reports from St. Louis and the fact of that delivery showing no decline in that market caused @mparative firmness in July. Minneapolis and Duiuth received 334 cars of wheat, against 332 a week ago, and 581 cars the corresponding day of last year. Chicago receipts were 17 cars, against 28 a year ago.

fell cars the corresponding day of last year. Chicago receipts were it cars, against 28 a year ago.

The St. Louis support to July was finally withdrawn, owing to the bearishness of this market, and in the last half hour bears were in control everywhere. May started at 75% 074%c, against yesterday's close of 74%c. It eased off to 73% 07%c, recovered to 73% 07%c, then declined to 72%c, recovered to 75% 07%c, then declined to 72%c, closing at 72%c.

Speculative business in corn was fairly active and a stiff fight was kept up between the bulls and bears with the final result decidedly in the latter's favor. Much of the weakness was due to the decline in wheat, although the reduction of 1%c in Western freight rates announced to go into effect at once undoubtedly had great influence. Seaboard clearances were 112,000 bushels. May opened 1%c lower at 24% 0.24%c, and declined to 24%c, where it closed. Oats were rather dull, although a fair business was transacted. Fluctuations were influenced entirely by the actions of wheat and corn but on a more moderate scale. influenced entirely by the actions of whea

influenced entirely by the actions of wheat and corn, but on a more moderate scale. May started at a shade lower, 1746174c bid. The visible supply showed an increase of 289,000 bushels, which may have assisted in the heavier feeling.

Provisions were weak, under the influence of some realizing by holders, who, although still feeling bullishly on the market, were said to be taking chances of getting the property back jater for less money. The tendency of prices was downward from the start. At the close May pork was 124c lower at 38,724; May lard, 74c, lower at 44,20, and May ribs loc lower at 34,70.

Estimated receipts for Tuesday: Wheat, 20 cars; corn, 150 cars; oats, 190 cars; hogs, 18,000.

Stocks and Bonds.

New York, March 22.—The market opened to-day with a tendency towards higher prices, the steadiness for American securities on the London exchange being reflected here. The strong demand for New York Central also indicated improvement. This demand was stimulated by reports promulgating the refunding plan. Chicago Gas had numerous supports and heavy orders for the purchase of the stock were executed, the aggregate of the shares sold reaching over 23,000, making it the leader of this market involving the business. The bright, seasonable weather, with its encouragement as to revival of trade in some lines, was also a factor in giving strength to the opening market. But, in the course of trading, other features soon developed which overrode the encouraging elements and prices depressed. New Jersey Central proved too heavy for any business to sustain, and was the decisive factor in impeding the advance in the market. The news that the supreme court reverses the decision of the court below and upholds the contract of the government against the Trans-Missouri Freight Association, to fix rates of transportation in the Northwest, that it was for the "unreasonable restraint of trade" under the Sherman act, affected the grangers more immediately than otherwise, but on account of its farreaching possibilities, it depressed the whole list. The legal Joint Traffic Association, under which the trunk lines fix and apportion business, being in litigation, and on the supreme court to-day's decision is felt to have important bearings on traffic. The fact that the decision was rendered under the Sherman anti-trust law, heretofore somewhat discredited as a weapon of offense in trust, caused some uneasiness. The heaviness in the market was somewhat counteracted for a time by the steady demand for New York Central and Omaha, the former touching 102, the best price yet reached in the present improvement. The decision at Toledo of the Arbuckle suit in favor of the Sugar company only slightly affected Sugar shares, as the prosecution, wh

Provisions. There was more disposition to press sales yesterday than for some time, and the mar-ket in consequence was weaker all round. While there was a fair movement in cash stuff, there was no real life to trade, and the speculative market was decidedly bear-ish.

OF INTEREST TO STOCKMEN.

GREAT DIFFERENCE IN GARS AT ST. LOUIS AND KANSAS CITY.

While the Town Down the River Hay Increased Slightly in Hogs and Cattle, It Has Fallen Off in Sheep-Personals.

St. Louis announces with a flourish of trumpets that it has gained since January 1, 10,261 in its cattle receipts and 14,868 in its hog receipts, but says nothing of a decrease in sheep arrivals of 11,016. Here at Kansas City for the same time there was an increase of 42.683 in cattle receipts, 157,-192 in hogs, and 30.961 in sheep, and we are modestly saying nothing about it. Merit hath its own reward. Chicago sent 97 cars of stockers and feed-

ers to the country last week and Kansas City for the same time shipped 22 cars, Comment is unnecessary. Despite the light receipts of choice heavy cattle, the export buying at this point is holding up very well. There were taken here last week, 140 cars of cattle, against 55 a year ago for the export trade.

E. J. Huling, of Trinidad, Col., had in yesterday 381 choice Colorado lambs averaging 79 pounds that sold for \$5 per cwt.
